## • Profile

I am a very positive, educated and active person, with a good relationship with people, I work very well in a team. I love to always be learning, so in my free time I learn on my own. I am passionate about challenges, so perseverance and patience are my hallmarks.

I work as a teacher, with small and large groups of children and young people, I teach programming classes with different programming languages, IDEs and platforms. I also develop applications and code for the company.

In this company I analyzed data and used it to increase the contracted services and clients, I also automated the payment of a large database to pass it to the banking system. I was responsible for large sums of money since the payment was primarily made in cash.

# Huelva Church

7 years 2 months  
 Huelva, Spain  
 Finance

I led more than thirty people, kitchen team, cleaning, event organization, children's teachers, sound and video team. I gave training and held meetings and presentations. I managed the finances of the entire center. I created forms, web page mockups, created a database, analyzed data and with them we automated and improved daily activities.

# HB Golden Server

2 years 5 months  
 Remote  
 Game Server

In this team project, I worked as an administrator, moderator, host, 2D sprite modeler, and we developed and debugged C++ code. We also translated all the server, source, and client code and files from Korean to English and from English to Spanish.
